SPARKLE CARE

Hospital and health care centers

Nobody else cares...
but WE do!!!

Welcome to your forever home!
So much fun, you'll never WANT TO
LEAVE!

Our medical practitioners here at the Sparklecare hospital are devoted to our mission of returning all of our ill patients to health and happiness. There is nothing we care about more than YOUR* (yes, you!) safety and wellbeing.

*not our inpatients

OUR FACULTY

Dr. Snuggles

Senior cardiologist, top of his class at every university he's attended, never killed anyone more than once

Nurse Hope

Very good at everything! Everyone likes this guy! Absolutely charming and very nice to all women.

Nurse Epoh

Actually sucks. Does nothing right. Her beliefs do not reflect that of her employer. Pay no attention to her.

Dr. Confetti

Cardio surgeon who is absolutely wonderful to her patients.

Dr. Lungs

She's very smart and always knows what she's doing! Very reliable!

And more!

QUALITY GUARANTEED

Our staff can confirm that during your visit to our hospital you will be cared for under great living conditions:

CLEAN floors, walls, and ceilings

Free of bodily fluids, pests, disease, and other bacteria

Absolutely NO BLOOD anywhere

Literally no blood in or on anyone or anything in the entire facility. If blood is found it is to be removed. There isn't any blood here at all so stop asking, we don't have any nor do we want it.

Quiet, kind, undisruptive roommates and caring, sympathetic staff.

Your stay is ensured to be peaceful, warm and welcoming. Any rambunctious behaviors will be dealt with by staff in healthy manner.

Patient safety is top priority

WE PROMISE!!!

YA KNOW THATS
PROPAGANDA
RIGHT?

Um... are... you
talking to... me?

Mr. Ill, the doctor
will see you now.

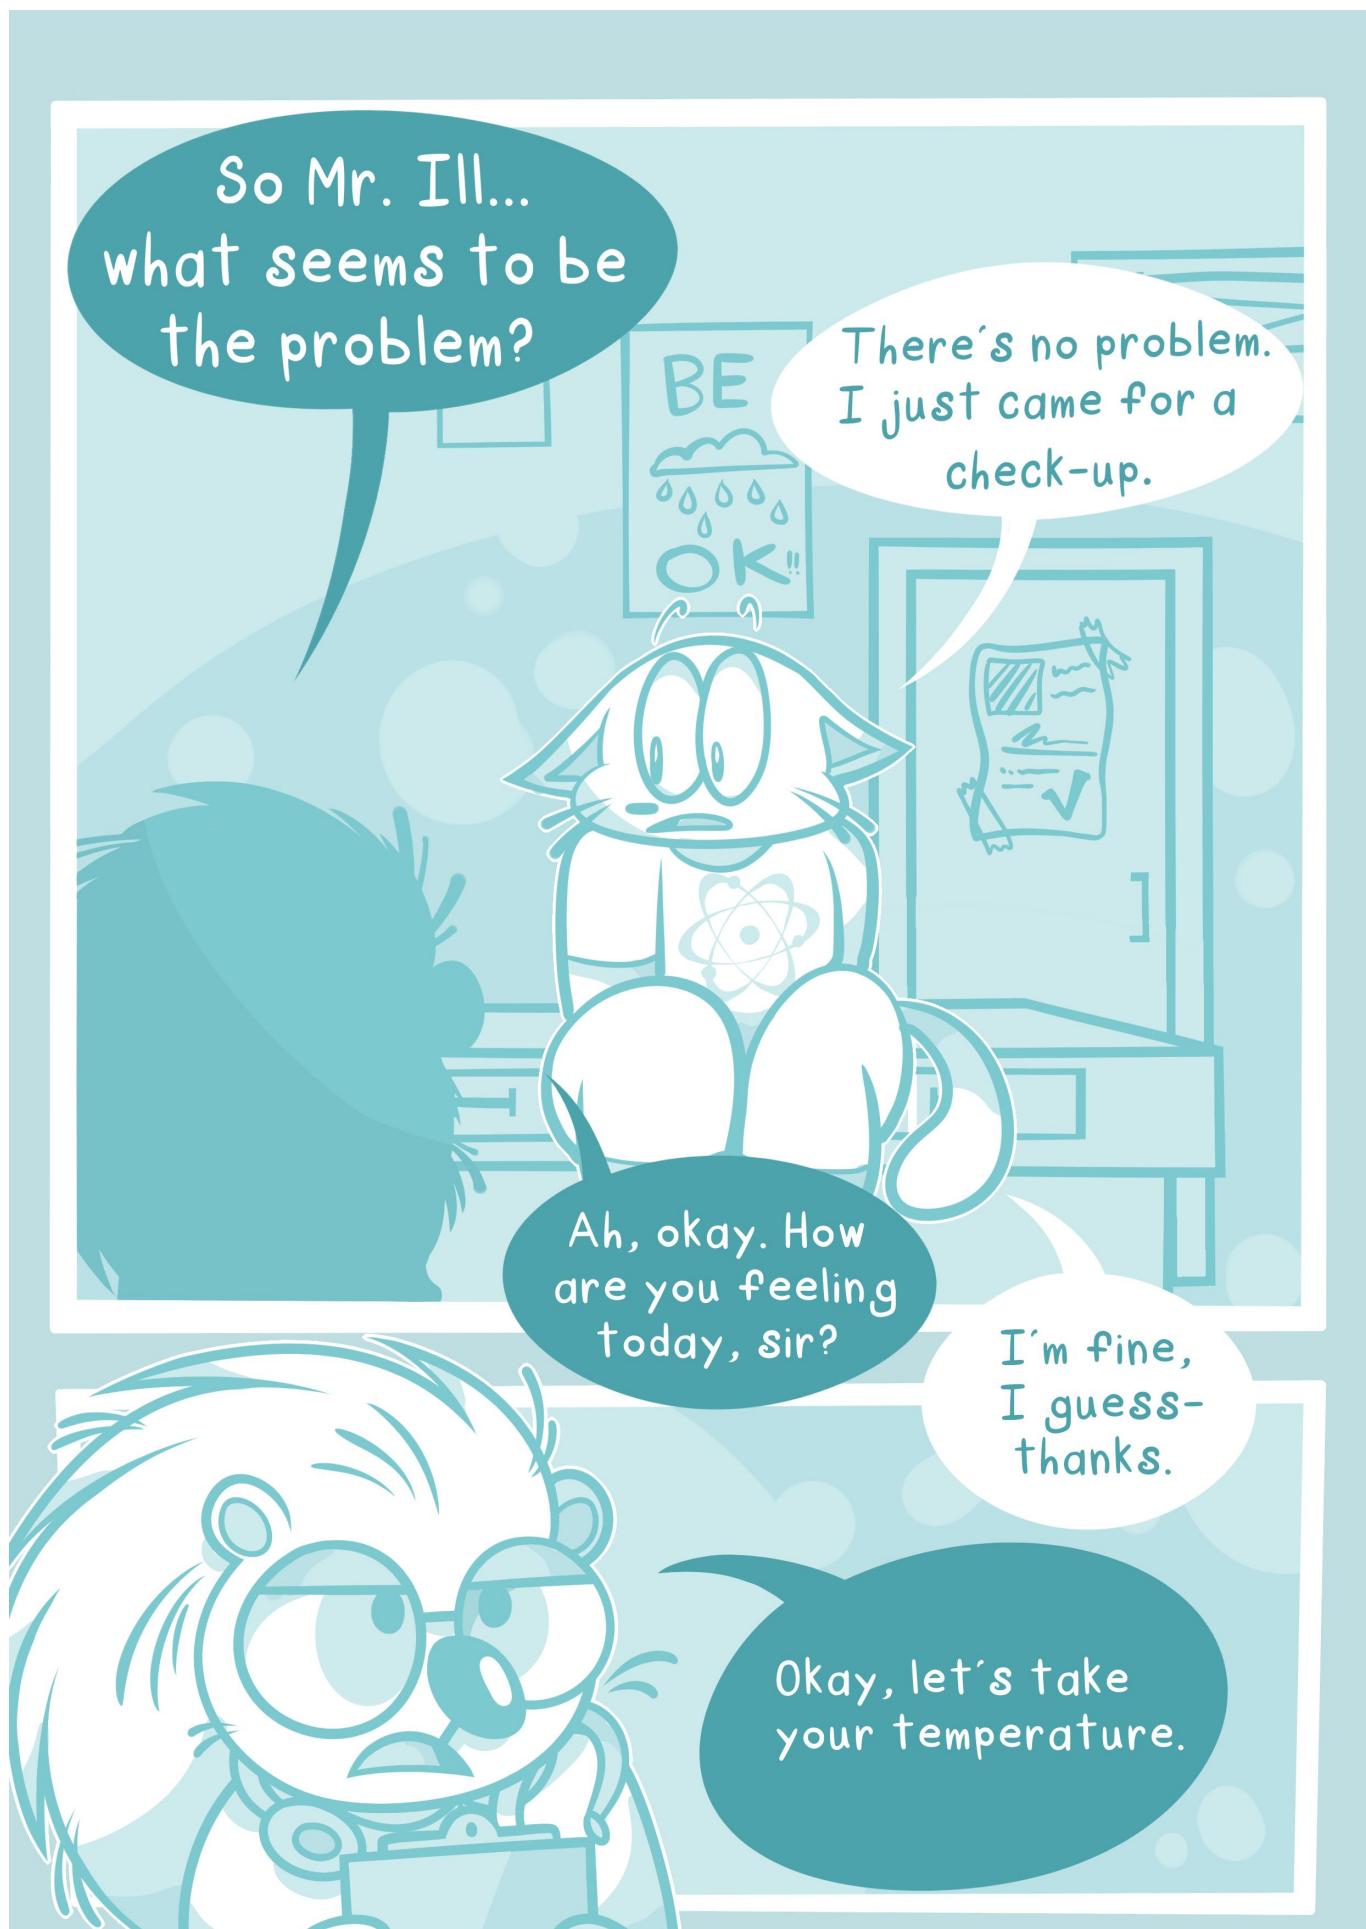

I'm very sorry sir.
I hope things get
better for you...

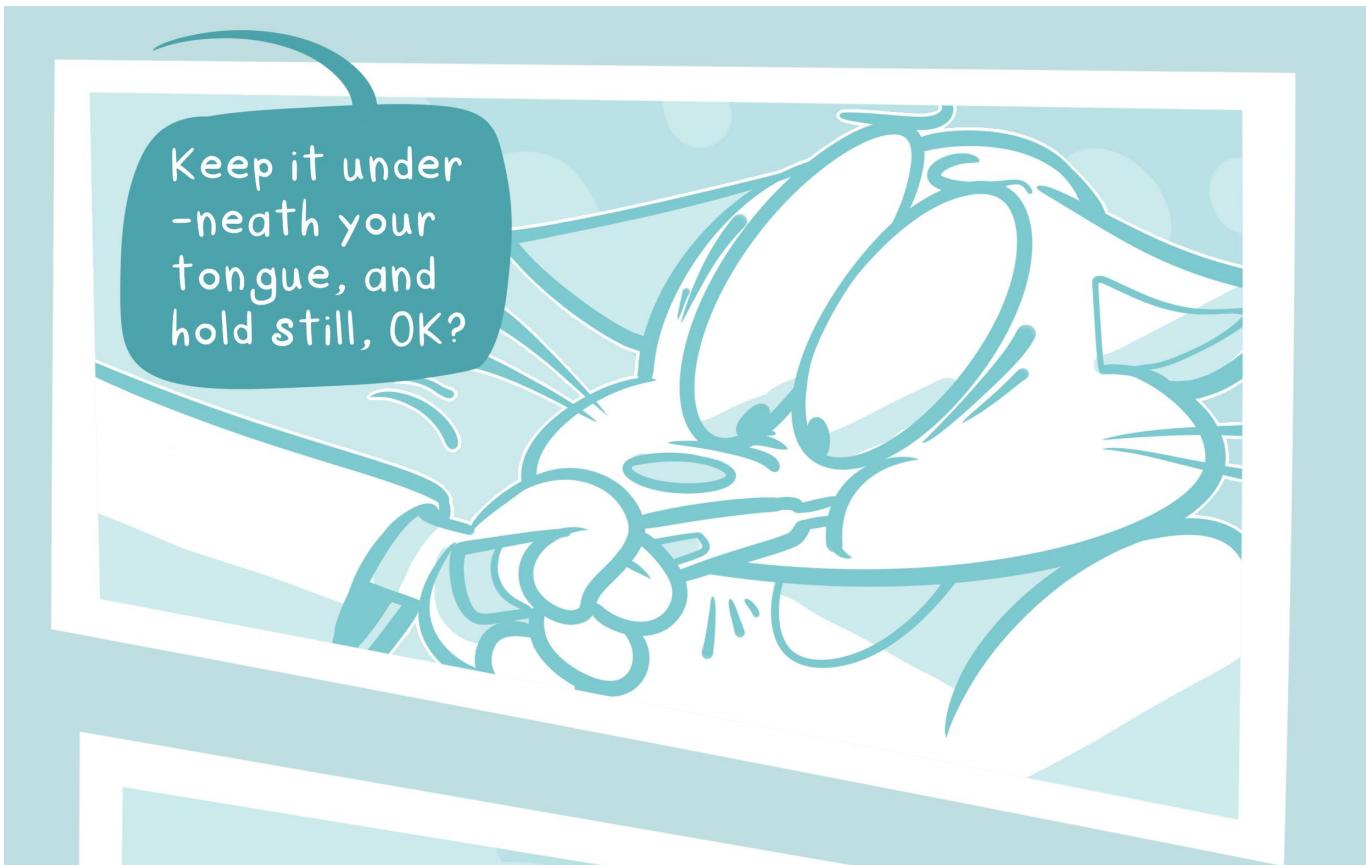

IT NEVER GETS
BETTER, KID!

NEVER!

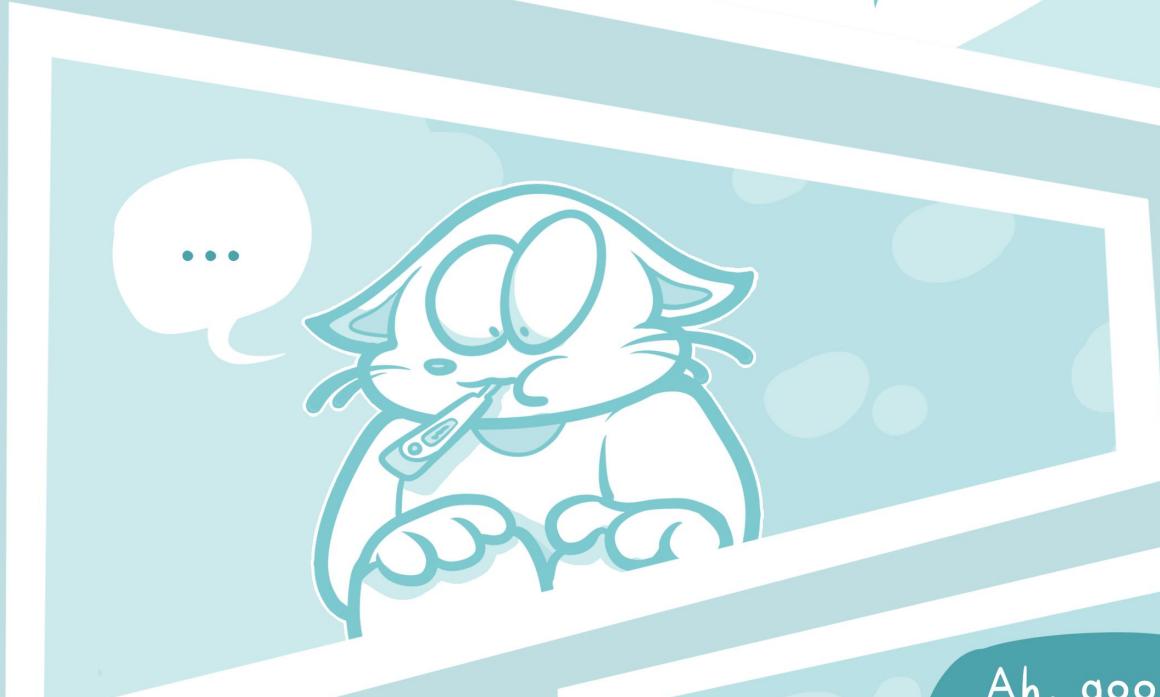

NEVER!

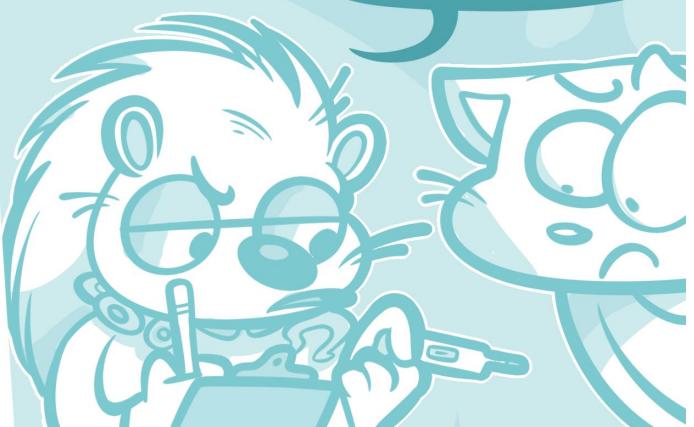

Keep it under
-neath your
tongue, and
hold still, OK?

...

Ah, good,
looks normal.

Alright, now let's take your heart rate and BP.

THUMP!

THUMP!

HI: 140+
PRE-HI: 120-110
IDEAL: 90-120
LOW: 70-90

666 BPM
426/120

Hm... that looks normal too. but, just to be safe, I'm going to take a blood sample. come with me to the lab.
